TO ALL OF THE VOLUNTEERS:

Volunteers have been there to prepare the ice and ready the facilities. Volunteers have been there to coach, time, corner steward, office staffing, whip, canteen, place judging, publicity and the list goes on and on and on. Your dedication to the sport of speed skating is what makes our meets the great successes that they are!

THANK YOU!

Injuries	<ul style="list-style-type: none"> - I believe two skater cuts occurred on day 1 but the office recorder was not presented with any paperwork and so no injury no-show points were awarded.
No-shows	<ul style="list-style-type: none"> - Two registered skaters did not complete in any events and were assigned zero points for any missed finals. - Any skaters missing a final were assigned zero points
Records	<ul style="list-style-type: none"> - Provincial records were broken by two Moose Jaw Bantam Female skaters and those are included as part of the protocol. - The master skaters were not tracked against provincial records as I was not yet sure if Saskatchewan observes the 5-year categories. This will be confirmed and any paperwork issued as a revision to the protocol
Advancements	<ul style="list-style-type: none"> - Advancements to primary file were based upon the Canadian ST format with the qualification being that any "placings based upon time" are strictly based upon time. For example "Top 1 + 2" is taken to mean first place and the next two fastest times (not the next two fastest second places). - Placements into secondary and tertiary finals was based strictly upon times.
Electronic timing	<ul style="list-style-type: none"> - Electronic timing was used for a majority of the races. Due to a failure of the new capture method the recorder was using in the office, the first 22 races were recorded using manual times even though the electronic timing was working properly. - In cases where a heat race was not captured electronically then all heats were based on manual times. - There was one case of a final race not capturing one of the skaters times. The manual time was used with a 0.2 seconds being added to the amount. - Note for future meets: One race came into the office with negative times! While the office went with manual times, it was eventually determined that the incorrect start time was used and that is how negative times were achieved. - Note for future meets: It is believed that the FRS radios being used for communications were interfering with the wireless network. The radios were not used on the second day.
Fun Racing	<ul style="list-style-type: none"> - Division II skaters participated in a pursuit race on day 1 - Division I skaters participated in a relay on day 1
Protests	<ul style="list-style-type: none"> - One by Regina – A skater in the secondary file should have participated in the primary final. The skaters in question we placed based upon times and the chief recorder acknowledge the incorrect placing. The skater that raced in the primary file was awarded the maximum points that could have been achieved in the secondary final. Their time and placing in the primary final was left in the protocol. The skater that raced in the secondary file was awarded the minimum points that could have been achieved in the primary file. Their time and placing in the secondary file was left in the protocol.
